Course Content

Unit I : Concept of Risk, Types of Risk, Managing Risk- Mitigation methods, Sources and Measurement of Risk, Risk Evaluation and Prediction. Application of Statistical Techniques in Risk Management. Risk Retention and Transfer, Pooling, Loss Exposure, Disaster Risk Management.

Unit II: Development and Concept of Insurance, Need for Insurance, Nature of Insurance Contract, add-ons, riders, Insurable Interest, Insurance Industry in India. Globalization of Insurance Sector, Legal Aspects of Insurance Contract, Principles of Insurance, Estoppels.

Unit III : Classification of Insurance industry- Distinction between Life Insurance and General Insurance. Life insurance, Fire Insurance, Motor Insurance, Health Insurance, Marine Insurance, Automobile Insurance, Computation of Insurance Premium.

Unit IV : Control of Malpractices- Negligence, Loss Assessment and Loss Control- Exclusion of Perils, Insurance intermediaries, Actuaries .IRDA role and significance -Regulation of Risk Reduction by IRDA. Insurance linked Social security schemes in India, Reinsurance, Co-insurance.

Text Books:

1. Insurance and RiskManagement : Gupta. P. K.
2. Principles of RiskManagement and Insurance : George. E. Rejda.

Reference Books:

1. Principles of Insurance and RiskManagement :Mittal. Alka. & Gupta. S. L
2. Principles and Practices of Insurance : Panda. G.S
3. Principles and Practices of Insurance : Mishra. M. N
4. RiskManagement :Jeevanandam. C

Semester III-FINANCE MANAGEMENT ELECTIVE COURSE

MBMBA03E12 : COST SYSTEMS AND CONTROL

Course Objective	To provide an in-depth knowledge of the detailed procedures and documentation involved in cost ascertainment systems. To understand the concepts of Financial Management and its application for managerial decision making.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion , Seminars etc		
Core Course	4 Credits	4 teaching hrs. per week	3 Hrs. End Sem. Exam :80 Marks

Course Outcomes

1. To recognize interdependence of cost accounting and management accounting.
2. Apply marginal and absorption costing approaches in job, batch and process environments;
3. To Prepare and interpret budgets and standard costs and variance statements.
4. Identify and apply the concepts of Financial Management.

Course Contents:

Unit I - Methods of Costing: (a) Job Costing (b) Batch Costing (c) Contract Costing .Process Costing – Normal and abnormal losses, abnormal gain, inter process Profit. Pre-requisite of a good costing system, difficulties in installation of costing systems.

Unit II - Marginal Costing (i) Meaning of Marginal Cost and Marginal Costing (ii) Absorption Costing vs. Marginal Costing (iii) Break-even analysis (iv) Margin of safety (v) Application of Marginal Costing for decision making, Make or Buy decision , Key factor analysis, Sales mix decision (simple problems only). Standard Costing & Variance Analysis: (i) Concept of standard cost and standard costing (ii) Advantages and limitations (iii) Computation of variances relating to material and labour costs.

Unit III - Budget and Budgetary Control (i) Concepts, Types of Budgets (ii) Budgetary Control Vs Standard Costing (iii) Advantages and limitations (iv) Preparation of Budgets: Sales, Production, Material, purchase, labour and Production cost budget. Fixed and Flexible budgets. Zero based

budgeting (theory), Performance budgeting (theory), Programme budgeting (theory), Research and Development Cost Budget (theory).

Unit IV - Cost Audit: Objectives and Advantages. Concept of value analysis and value engineering, Steps in value analysis, strategic cost management. Cost Reduction -nature, scope, areas of cost reduction campaign. Difficulties in cost reduction, cost reduction and its organization.

Text Books:-

1. Management Accounting : Khan. Jain P.,
2. Management Accounting :Singhvi. Nm

Reference books:-

1. Cost Accounting: Theory and Practice:M L Agarwal
2. Advanced cost accounting: Khan and Jain
3. Cost Accounting: Texts and Problems: M. C. Shukla
4. Cost Accounting: Principles & Practices:M. N. Arora

SEMESTER III- Human Resource Management Elective Course
MBMBA03E17: TEAM BUILDING IN ORGANIZATIONS

Course Objective	To teach students the importance of raising groups and turning them into passionate teams in organizations. It gives understanding of how individuals as team players must behave to sustain teams.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion and Seminars etc.		
Elective Course	4 Credits	4 teaching hrs. per week	3 Hrs. End Sr. Exam : 80 Marks

Course Objective:

1. To build a good team in an organization
2. To manage various dynamics and forces in the team in the real scenario.
3. To internalize corporate values and strengthen the team.
4. To resolve various problems in the team through effective communication

Course Content:

Unit I : Workgroup Vs. Teams: Transforming Groups to Teams; Types of Teams; Stages of Team Building and its Behavioural Dynamics; Team Role; Interpersonal Processes; Goal Setting and Problem Solving.

Unit II :Interpersonal Competence & Team Effectiveness: Team Effectiveness and Important Influences on Team Effectiveness. Measuring Interpersonal Competence FIRO-B. Context; Goals; Team Size; Team Member Roles and Diversity; Norms; Cohesiveness; Leadership, Measuring Team Effectiveness.

Unit III : Communication and Creativity: Communication Process; Communication Effectiveness & Feedback;Fostering Team Creativity; Delphi Technique; Nominal Group Technique; Traditional Brainstorming; Electronic Brainstorming. Negative Brainstorming.

Unit IV : Role of Leaders in Teams: Supporting Teams; Rewarding Team Players; Role Allocation; Resource - Management for Teams; Selection of Team Players; Leaders as Facilitators, Mentors. Developing Collaboration in Teams: Functional and Dysfunctional Cooperation and Competition; Interventions to Build Collaboration in Organizations; Social Loafing, Synergy in Teams, Self-Managed Teams.

Text Books:

1. Organizational Behaviour: Emerging Realities for the Workplace Revolution. : McShane, S. L & Glinow M. A. V.
2. Organizational Behaviour : Hellriegel, D. & Slocum, J. W.

Reference Books:

1. Organizational Behavior : Robbins, S. P.
2. Organizational Behavior : Luthans, F.
3. Understanding Organizational Behaviour : Pareek, Udai
4. Groups Theory & Experience : Naper, Rodhey, W & Gershenfeld Mattik,

SEMESTER III- Human Resource Management Elective Course

MBMBA03E18 : TRAINING & DEVELOPMENT: SYSTEMS & PRACTICES

Course Objective	To educate students on the importance of training needs and the issue of human resource development in organization.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion and Seminars etc.		
Elective Course	4 Credits	4 teaching hrs. per week	3 Hrs. End Sr. Exam : 80 Marks

Course Objective:

1. To understand training needs, identification of training needs, training processes, training methods, and evaluation of training;
2. To inculcate training and development in the context of organizational strategy.
3. To practice different or emerging trends in training and development;
4. To train the employees for better performance

Course Content:

Unit I - The Training Context: Nature and Scope of Training, Training Challenges, Forces Influencing Working and Learning, Role of Training in Organizations, Systematic Approach to Training, Learning: Theories and Process Strategic Training: Models of Training- Faculty, Customer, Matrix, Corporate University and Business Embedded Model, Snapshots of Training Practices: Training Facts and Figures, Training Investment Leaders etc.

Unit II - Training Needs Analysis: The Process and Approaches of TNA, Organizational Analysis, Requirements Analysis, Task, Knowledge, Skill, and Ability Analysis, Person Analysis, Team

Work for Conducting Training Needs Analysis, TNA and Training Process Design, Output Of TNA, Focus on Small Business

Unit III - Program Design: Learning Environment, Pre-training Communication, Facilitation of Training with Focus on Trainee (Motivation of Trainee, Reinforcement, Goal setting). Transfer of Training: Conditions of Transfer, Facilitation of Transfer with Focus on Organization Intervention (Supervisor Support, Peer Support, Trainer Support, Reward Systems, Climate etc) Training Methods, Implementation and Evaluation of Training Programme, Training Aids.

Unit IV - Employee Development, Career Management and Future of T & D: Approaches to Employee Development, The Development Planning Process, Companies Strategies to Provide Development. Types of MDP's, EDP's/Seminars and Conferences, Symposia, Career Management: Traditional Career vs. Protean Career, Models of Career Development, Challenges in Career Management: Onboarding, Dual Career Paths, Plateauing, and Managing Career Breaks, Future Aspects of T& D.

Text Books:

1. Training in Organizations : Goldstein, I.L. & Ford, J.K.
2. Effective Training: Systems, Strategies and Practices : Blanchard, P. N. & Thacker, W. J.

Reference Books:

1. Employees Training and Development : Raymond Noe, A
2. Training for Organizations : O'Connor, Browner & Delaney
3. Training for Organisational Transformation : Lynton Rolf, P. & Pareek, Udai
4. The Training Trilogy: Conducting Needs Assessments, Designing Programs, Training Skills : Leatherman, D. (2007).

SEMESTER III- Human Resource Management Elective Course

MBMBA03E19: PERFORMANCE MANAGEMENT

Course Objective	To apprise the students about the importance of Performance Management in organizations and impart an understanding of the process of managing performance to achieve the organization's current and future objectives.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion and Seminars etc.		
Elective Course	4 Credits	4 teaching hrs. per week	3 Hrs. End Sr. Exam : 80 Marks

Course Outcome:

1. Understand and implement key elements in the performance of employees.
2. Design a strategic organisational and departmental objective in terms of the human resource.
3. Evaluate and select success factors and performance measures
4. Deploy a successful methodology for developing and implementing goal metrics.

Course Content :

Unit I - Foundations of Performance Management: Concept , Significance, Objectives, Pre-Requisites, and Characteristics of Effective Performance Management.. Performance Management versus Performance Appraisal; Performance Management Process-Conceptual Model, Overview of Strategies for Performance Management.

Unit II - Planning and Implementation of Performance Management- Overview of Performance Planning, Defining Performance and Selecting a Measurement Approach, Developing Job

Descriptions, Defining Performance Standards, Key Result Areas, Competencies and Skills, Characteristics of Effective Performance Metrics

Unit III - Performance Appraisal and Monitoring: Characteristics of effective Appraisals; Methods of Performance Appraisal; Designing Appraisal Forms; Implementing Performance Appraisal Process, Performance Management Audit,

Unit IV - Other Performance Management and Development Issues: Coaching, Counseling and Mentoring; Potential Appraisal, Competency Mapping; Performance Related Pay; Implementing Performance Management System- Strategies and Challenges; Role of HR Professionals in Performance Management; Ethical and Legal Issues, Appraisal and Management Practices in Indian Organizations.

Text Books:

1. Performance Management : Agunis, H
- 2 Performance Management : Kohli, A.S. & Deb, T.

Reference Books:

1. Performance Management : Bagchi., S.N
2. Performance Management: Putting Research into Practice : Smither, J.W.
3. Performance Management and Appraisal Systems:HR Tools for Global Competitiveness : Rao, T.V
4. Performance Management : Kandula, S.R

SEMESTER III – Human Resource Management Elective Course

MBMBA03E20 : COMPENSATION MANAGEMENT

Course Objectives	To promote understanding of issues related to the compensation or rewarding human resources in the corporate sector, public services and other forms of organizations and to impart skills in designing and analyzing and restructuring reward management systems, policies and strategies.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion, Seminars etc.		
Core Course	4 Credi	4 teaching hours per week	3 Hrs. End Sem. Exam : 80 Marks

Course Outcomes:

1. Define compensation management and identify its key components.
2. Analyze different compensation strategies and their impact on employee motivation and productivity.
3. Evaluate the challenges and ethical considerations in designing and implementing compensation plans.
4. Critically assess the effectiveness of compensation management practices in real-world organizations.

Course Content :

Unit I - Conceptual Framework of Compensation Management: Components of compensation - Importance and relevance of compensation management in organizations - Compensation Strategy and Design: Understanding compensation strategy - Factors influencing compensation decisions - Job analysis and job evaluation - Designing pay structures and pay levels - Variable pay plans and incentives - Emerging trends of compensation management.

Unit II - Compensation for Employees: Wage Theories - Wage Policy in India - - The Pay Commission - Wage Boards - Methods of Payment: Performance based pay systems, Knowledge based pay system, Team based pay system, Market based pay system, Incentive based pay system - ESOP's & EVA .

Unit III - Executives Compensation : Components of executive compensation - Guidelines of Companies Act Relating to CEO Compensation. Compensation and Benefits Administration - Compensation surveys and benchmarking - Salary administration and budgeting - Employee benefits and their role in compensation.

Unit IV - Tax Planning: Tax Implication of Employee Compensation Package to the Employer - Tax Efficient Compensation Package - V R S: Approaches to deal with the Workforce Redundancy - International Compensation: Problems, Objectives, Elements of Expatriate's Compensation Package.

Text Books:

1. Compensation Management in a Knowledge-based world : Henderson, R.I.
2. Compensation Management: Text and Cases : Deb, T.
3. Reward Management: A Handbook of Salary Administration, Kogan Page Ltd, 1988 : Armstrong, Michel and Murlis, Helen,
4. Compensation Management: Rewarding Performance : S.S. Upadhyay

Reference Books:

1. Compensation and Reward Management : Singh, B.D
2. Compensation, Evidence, and Strategic Implications : Gerhart, B. & Rynes, S.L
3. The Compensation Handbook-A State of the Art Guide to Compensation Strategy and Design : Berger & Berger.
4. Strategic Compensation: A Human Resource Perspective Approach : Martocchio, J.

SEMESTER III - HEALTH CARE MANAGEMENT ELECTIVE COURSE

MBMBA03E25 : HEALTHCARE MANAGEMENT

Course Objectives	To comprehend the structure, organization and mechanism for administering sustainable healthcare services to the society .It also focuses on providing practical exposure to the governance of healthcare infrastructure in the country by benchmarking with global best practices.		
Pedagogy	Lectures for introduction of concept, field visit to hospitals and healthcare service providers; seminars and symposia on the present and prospects of Healthcare Management		
Core Course	4 credits	4 teaching hrs. per week	3 Hrs. End Sem. Exam : 80 Marks

Course Outcomes

1. To describe the existing healthcare infrastructure in India
2. To illustrate the different applications of healthcare management principles
3. To assess the implementation of Governmental programmes at primary, secondary and tertiary levels of healthcare provision in the country.
4. To explore the advancements in Healthcare technology, policies and strategies.

Course Content

Unit 1: The Indian Healthcare Industry - Market statistics and trends-Present Government schemes- Role of Public- Private Partnership in furthering the healthcare infrastructure in the country-Provisions in Union Health Budget- Indian Medical Association, Indian Healthcare Federation, Indian Dental Association-Medical Tourism in India- Opportunities and Challenges

Unit 2: The Organization for Indian Healthcare - Hospitals – Types, scope and functions – major healthcare centers in Delhi, Mumbai, Chennai and Bengaluru -Primary, Secondary & Tertiary Healthcare in India -Health Insurance – processes, providers, pros and cons-Diagnostics: As a service industry, advancements in diagnostics-Healthcare Marketing- Scope, approaches and case studies

Unit 3: The Pharmaceutical Sector - Leading National and International Pharma Companies and their products/ services.

Unit 4: Technology and Healthcare - Medical Devices and equipment for detection, diagnosis and curing of lifestyle diseases and critical illnesses-Latest trends in Information Technology applications in the healthcare sector

Texts & Reference

1. Management of Healthcare Organizations: An Introduction (Third Edition) - Peter Olden (Publisher-Health Administration Press, 2019)
2. Healthcare Management- Anam Faruqi (OrangeBooks Publication, 2021)

5. Indian Brand Equity Foundation Sectoral report and other Industry Reports
6. Online news portals (The Economic Times, The Hindu Business Line)

SEMESTER III - HEALTH CARE MANAGEMENT ELECTIVE COURSE

MBMBA03E26 :HEALTH AND DEVELOPMENT

Course Objective	To give a broad picture about the healthcare system in India and its current status. To have knowledge on the committee reports and developments in the health care system over a wide period of time.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion, Seminars etc.		
Elective Course	4 Credits	4 Teaching hrs. per week	3 Hrs End Sem exam : 80 marks

Course Outcome

- Measuring the community in terms of their healthcare needs and gaps and structuring a provision to provide the same.
- Develop awareness of the Healthcare industry structure in India and abroad to have an access to globalised system of healthcare and its development.
- Ability to identify and understand various socio economic indicators of the health aspects of a community/country.
- Formulate ideas and develop and participate in implementation of plans to improve healthcare aspects required.

Unit I

Evolution of Health care system in India- Historical overview-Indian health care system- Concept of health & disease-Spectrum of Health-Determinants of Health-Responsibility of Health.

Unit II

Measurement of Health status in the community - Indicators of health-Mortality-Morbidity-Disability-Nutritional status- Health care delivery-utilization rates-socio economic indicators- health policy indicators- indicators of quality life.

Unit III

Health care System in Developed and Developing countries-Developed & Developing reasons, Health Systems-Levels of health care-Health team concept- Millennium Development goal- International health-WHO, UNICEF, UNDP, ILO, SIDA, DANIDA-International Red Cross-CARE.

Unit IV

National Health plan and Review of report on Health care- National Five year Plans-Review of report on Health care-Bhore Committee-Mudaliar committee-Jain Committee-Chaddha Committee- Kartarsingh committee- Srivastava committee & committee on plan & projects- Bajja committee & Rao Committee.

Reference Books:

- 1.Social and PreventiveMedicine :K. Park
- 2.Preventive and Social Medicine : Prabhakar Rao

SEMESTER III - HEALTH CARE MANAGEMENT ELECTIVE COURSE

MBMBA03E27 : HEALTHCARE ECONOMICS

Course Objective	The course aims at providing an idea about health determinants, nature and characteristics about health care markets etc. It seeks to examine the factors that influence the industry's costs and quality care.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion, Seminars etc.		
Elective Course	4 Credits	4 Teaching hrs. per week	3 Hrs End Sem exam : 80 marks

Course Outcome

- Achieves the primary objective of acquiring systems-based solutions to make healthcare more equitable, accessible and affordable for all. Health economists seek to understand the role that a broad range of stakeholders play in healthcare spending.
- Aids in understanding and developing value-based care which focuses on health care being delivered on the basis of quality over quantity driven by data from specific metrics like hospital or clinic readmissions, patient engagement etc.
- Recognize how people pay for care, how those payments are processed and how health systems around the world can be restructured and improved.
- To have a thorough understanding of how economic behavior factors into health and health care decisions that can be beneficial for anyone interested in this field.

Unit I

Nature of Economic Analysis – nature Economic – functioning of Economic systems – Circular flow and interdependence of Economic activity- Basic Economic concepts - scarcity – Opportunity cost –Discounting principle – Concept of margin – Utility – Demand – Supply and Elasticity – Relevance of Economics to health and medical care.

Unit II

Utility analysis – Nature of Demand and determinants – law of demand – Elasticity of Demand- Supply Curves – Cost Concepts and Cost Analysis - Unique Nature of Health – Health as a Consumer and investment Good – Valuation of Health –Externalities in Health care – Economic Evaluation in Healthcare.

Unit III

Market Configuration – Price determination under different market conditions – nature and Characteristics of Health care markets - Demand for and supply of Health care services- Market failures and Government intervention and control.

Unit IV

Health care indicators – Health policies - Health care expenditure – Financing of Health care, Allocations under 5 year plans.- National rural Health Machine (NRHM) – Human Development indices - Trends in Healthcare – Changing demography – Medical Technology and Escalating Health costs – Public - Private Partnership -effects of Globalization.

Reference Books:

1. Micro Economic Theory : Dwivedi, D.N
2. Health Economics and policy : James Henderson
3. Health Economics : Rexford E. Santerre
4. Economics of Health : Mills.A.& Lee,K
5. Health Economics : Peter Zweible & Friedrich Breyer
7. A Premier of Health Systems Economics : V.Raman Kutty
8. Health Economics in India : H.S.Rout&P.K.Panda

SEMESTER III - HEALTH CARE MANAGEMENT ELECTIVE COURSE

MBMBA03E28 : HOSPITAL ADMINISTRATION

Course Objective	The course trains the students to master general administration, planning and infrastructure management of hospitals. It helps to stay abreast of developments in functional areas of hospital management. It aids to upskill in health informatics and health insurance which is considered vital in the healthcare industry. As a whole it gives a broader understanding of the healthcare field.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion, Seminars etc.		
Elective Course	4 Credits	4 Teaching hrs. per week	3 Hrs End Sem exam : 80 marks

Course Outcomes

- Demonstrate adequate knowledge and mastery of techniques relevant to hospital management and/or to demonstrate a clear understanding of concepts, information and techniques at the forefront of the hospital management discipline
- Develop awareness of the responsibilities of senior hospital management, including understanding the role and functions of hospitals and their health care context and prepare to handle the management and development issues faced by a hospital manager, including structure and organization; planning and managing resources; and reviewing and evaluating services.
- Recognize how operational problems and situations are handled in practice by undertaking and reporting at a hospital attachment
- Formulate ideas and develop and participate in implementation of plans
- Take a proactive and self-reflective role in working and to develop professional relationship

Unit I

Principles of Hospital Management and Hospital administration

Hospital-Introduction-to give an idea about hospital and its role-peculiarities and factors influencing hospital care – Roles, responsibilities and profile of hospital administrator (CEO), applications of Hospital Information System (HIS) and Management Information System (MIS)- different types of models in healthcare administration.

Unit II

Systems view of hospitals and emerging trends-Hospital as a system-System approach to hospital administration - Role of hospital administration in education and research.-Health and medical informatics for an improved healthcare delivery- Health Insurance- process and settlement

-Admission and discharge procedures – discharge summary – hospital utilizations – statistics and census – report of different departments like matrons, Medical Officers (MO), ICU, NICU, ICCU and OT, security and maintenance department – Medico Legal Cases (MLC)- Significance of the meetings, follow-up services, feedback.

Unit III

Hospital resource planning and administration of functional issues-Planning and management of materials and utility services- Purchase, finance department , ward management, Human Relation and employee welfare- Job description and specification for various departments, staff selection and recruitment, orientation program, training and counseling, guidance, public relation - Introduction of Medico Legal Aspects of emergency services, labour loss, consumer protection, transplantation of human organs etc.

Unit IV

Legal Acts and Registration procedure-Laws pertaining to establishment, registration and regulations of hospital, Transplantation of Human Organs Act, 1994, Laws pertaining to health: Central Births and Death Registration Act, 1969, MTP Act, 1971, nursing home registration Act, Medical ethics / doctor patient relationship, preventive steps for doctors, consent form, life support medicine and other disciplines / anaesthesia – legal recruitments of licenses, certificates for hospital.

2. Hospital Administration, CM Francis & Mario C DSouza, Jaypee
3. Hospital Administration & Management, Sudhir Davra, Mohit Publications, New Delhi.
4. Principles of Hospital Administration and Planning, B. M. Sakharkar, Jaypee
5. Hospital Facilities Planning and Management, G. D. Kunders, Tata McGraw Hill
6. Hospital designs for healing, Prism Publications
7. Principles of Hospital Administration, John McGibbony
8. Hospital administration and planning, A. G. Chandorkar, Paras Publications

SEMESTER III

Tourism & Hospitality Management Elective Course

MBMBA03E33: TOURISM PRINCIPLES AND PRACTICES

Objective	To give an overview of concept of tourism, tourism industry and the various tourism organisations		
Pedagogy	Lectures, Assignments, practical exercises, case discussions seminars etc..		
Elective course	4credits	4Teaching hours per week	3 hrs end sem Exam: 80 marks

Course Outcomes

1. Students should gain a comprehensive understanding of the tourism industry, including its structure, key players, and major trends.
2. To familiar with the fundamental principles that govern the tourism industry.
3. To learn about destination management, including destination planning, development, and marketing strategies.
4. To get familiar with different forms of tourism industries.

Unit 1: Introduction to Tourism

Concepts and Definitions - Tourism: Concepts and definitions - Origin and development of tourism, Types and Forms of Tourism - Types of tourism: domestic, international, regional, inbound, outbound - Forms of tourism, Tourism Network and Components - Tourism network and components of tourism - Interdisciplinary approaches to tourism, Tourism Industry Structure - Attractions - Accommodation - Transportation - Food & Beverage (F&B) - Shopping - Entertainment - Infrastructure - Hospitality

Unit 2: Assessment of Tourism Impact

Trends in Tourism - Present trends in domestic and global tourism, Economic Impact - Positive and negative economic impacts of tourism, Socio-cultural Impact - Impact on local culture and society, Ecological Impact - Environmental effects of tourism

Unit 3: Sustainable Tourism Development

Carrying Capacity - Concept of carrying capacity in tourism - Measuring and managing carrying capacity, Sustainable Tourism Development - Principles of sustainable tourism - Strategies for sustainable tourism development-Emerging Areas of Tourism - Rural tourism - Eco-tourism - Medical tourism - Pilgrimage tourism - Other emerging tourism trends

Unit 4: Tourism Organizations and Planning

International Tourism Organizations - World Tourism Organisation (WTO) - Pacific Area Travel Association (PATA) - World Tourism & Travel Council (WTTC), National Tourism Organizations - Role and function of Ministry of Tourism, Govt. of India - Indian Tourism Development Corporation (ITDC) - Department of Tourism - PT&TC

Industry Associations - Federation of Hotel and Restaurant Associations of India (FHRAI) - Indian Hotel Association (IHA) - International Air Transport Association (IATA) Tourism Planning and Development - Overview of five-year plans with special reference to tourism development and promotion

Reference Books:

1. Travel Industry: Chunky Gee et al.
2. Tourism systems: Mill and Morisson
3. Successful Tourism Management: P.N Seth
4. Tourism Management- Vol.4: P.C. Sinha
5. Tourism Development: R. Gartner
6. Tourism Planning and Development: J.K Sharma
7. Tourism Principles, Philosophy, Practices: Goldener, C & Ritchie, B

SEMESTER III

Tourism & Hospitality Management Elective Course

MBMBA03E34: TOURISM PRODUCTS OF INDIA

Objective	To give an overview of different types of tourism products and destinations in India		
Pedagogy	Lectures, Assignments, practical exercises, case discussions seminars etc..		
Elective course	4 credits	4 Teaching hours per week	3 hrs end sem Exam: 80 marks

Course Outcomes

1. To make students aware about the tourism products and its related scope in the country.
2. To gain a comprehensive understanding of India's rich and diverse tourism resources, including natural attractions
3. To develop an appreciation for India's diverse cultural heritage, including its languages, religions, festivals, cuisines, performing arts, and handicrafts, and understand how these aspects contribute to India's tourism appeal.

Unit - 1

Unique features of Tourism Product in India – Historical perspective – Ancient, Medieval and modern – Geography of India – Physical and Political features – Astrology, Ayurveda, Yoga and Meditation – Languages and literature – Major Religions of India.

Unit - 2

Cultural Tourism - problems and prospects – Fairs and Festivals-Dance Festivals –Performing arts – Dance and Music forms - Music Festivals – Fruit and Flowers Shows – Food Festivals – Myths and Legends – Cuisines and specialty dishes- Artifacts and Handicrafts Architecture –Paintings and Sculpture.

Unit - 3

Archaeological sites – Monuments –Ancient Temples of India – Forts - Palaces and Museums – Buddhist heritage sites of India-Islamic Art & Architecture-Hill stations- pilgrimage centres- Beach Resorts of India- facilities and amenities. Wildlife sanctuaries- National parks –Botanical gardens and Zoological Parks- Biosphere reserve-facilities and amenities.

Unit - 4

Major tourism circuits of India – Emerging Tourism Destination of India – Pilgrimage tourism- ecotourism-Rural tourism-golf tourism-wine tourism-camping tourism Adventure tourism-potential & issues-promotional measures initiated by Ministry of Tourism- Govt. of India-State Governments and Private Tourism Agencies.

SEMESTER III

Tourism & Hospitality Management Elective Course

MBMBA03E35: HOSPITALITY MANAGEMENT

Objective	To provide the students an understanding about accommodation and hospitality industry and emerging scenario in hospitality industry		
Pedagogy	Lectures, Assignments, practical exercises, case discussions seminars etc..		
Elective course	4 credits	4 Teaching hours per week	3 hrs end sem Exam: 80 marks

Course Outcomes

1. To understand about accommodation industries and different types of accommodations.
2. To Learn about marketing and sales strategies specific to the hospitality industry
3. To Understand the management of lodging facilities, including hotel operations, room division management, reservations, guest services, and housekeeping.

Unit -1

Introduction to accommodation industry – Types of accommodation and their grouping, classification, categorization and forms of Ownership - Activities in Accommodation. Management– Front office – Housekeeping – Bar and Restaurant - Supporting services.

Unit -2

The Room division - the food and beverage division - the engineering and maintenance division -the marketing and sales division - The A/C division - the HR division and the security division- Managerial Issues-Trends-Problems-success-factors-study of the working of selected Hotels/Motels/Restaurant etc.

Unit -3

Introduction to Hospitality industry and its distinctive characteristics – inflexibility- perishability fixed location-relatively large financial investment-Seven Ps of Marketing in Hospitality Marketing. Introduction to Restaurant Management, eating by drinking places, Hotel operations – Food services for the transportation market. Food services for the leisure market - retail food services –

Unit- 4

Business/ Industrial food services. Health care food services - club food services – Trends in lodging and food services. Future trends in hospitality industry-Usage of CRS in hotel industry-operational usage through chain of hotels-Role of association in hospitality management-Functions & Operations.

SEMESTER IV- Healthcare management elective course

MBMBA04E30 : PATIENT BEHAVIOUR AND CARE

Course Objective	The Course is designed to understand and develop a system for better patient care. It also provides an understanding about the significance of quality health care, patient's rights, responsibilities of hospital staff etc. It helps to attain a general level of competence in hospital management and to enable them to act with creative, innovative and entrepreneurial potentials with management tools.		
Pedagogy	Lectures, Assignments, Practical exercises, Case discussion, Seminars etc.		
Elective Course	4 Credits	4 Teaching hrs. per week	3 Hrs End Sem exam : 80 marks

Course Outcome:

- CO1.** Build up competencies to specify approaches for planning, implementing, and managing socio behavioral health education-focused programs and/or policies to promote human health.
- CO2.** Demonstrate deep knowledge in the legal aspects related with patient care and interventions.
- CO3.** Understand the drivers of patient health behaviours – Learn how to identify and interpret specific individual drivers of health behaviours.
- CO4.** Appreciate the significance of quality assurance and explain current trends in patient care.
-

Unit I

Introduction – Patient Rights -Patient Behavior– Models of Patient Behavior-Patient Motivation–Patient Perception – Attitudes – Attitude Change – Personality-Patient Involvement and Decision Making- Reference Group Influence – Opinion Leadership – Family Decision Making

Patient care -Importance of improving the quality care of patients- role of natural and human resources in patient care management- patient counseling- for surgical procedures, for treatment- grief counseling- protocols- medicare standards.

Unit -II

Policies and procedures of the hospitals for patients and personnel-Service Buying Behavior– Psychographics – Lifestyles – – Information Search Process – Evaluating Criteria-Audit of Patient Behavior.

Legal responsibilities -Essential documents-state licensure-civil rights-authority of

examination- treatments-autopsy-responsibilities of medical staff – insurance-use of investigational drugs.

Unit –III

Hospital Administration -Role of Medical Superintendent-Hospital Administrator- Resident Medical Officer-Night duty Executive-Public and guest relation- importance in patient care- information regarding patients- code of press relations- medical information- patient information booklets- attendants' management.

Unit IV

Geriatrics and gerontology – Economic and social implication of aging population
General policies and procedures of the hospitals for patients and personnel-need-legal implications- Pollution Control Board act-Bio medical waste management-safe collection-segregation-disposal-dumping , incineration and training.

6. Travel & Tourism Management: Foster Douglas
7. Tourism Principles and Practices: Cooper, Fletcher, Gilbert and Wanhill

SEMESTER IV

Tourism & Hospitality Management Elective Course

MBMBA04E38: TRAVEL AGENCY & TOUR OPERATIONS MANAGEMENT

Objective	To understand about the types of travel agency and tour operations and their major functions		
Pedagogy	Lectures, Assignments, practical exercises, case discussions seminars etc..		
Elective course	4 credits	4 Teaching hours per week	3 hrs end sem Exam: 80 marks

Course Outcomes

1. To gain a comprehensive understanding of the travel and tourism industry,
2. To acquire knowledge and skills to manage various aspects of travel agency operations,
3. To understand and design innovative tour packages and requirements
4. To understand regulatory frameworks and policies governing the travel and tourism industry

Unit-1

History & growth-emergence of Thomas Cook and American Express-Types of travel agency and tour operation-distinction between wholesale and retail travel agency-integration and linkages. Setting up a travel agency-sources of income-linkages with major railways and cruise system in the world-Indian railways – facilities and amenities for passengers-surface transport system-car rental companies-interstate bus and coach network.

Unit- 2

Function of a travel agency and tour operator Itinerary planning-domestic and international- Tips and steps for itinerary planning-Do's and do not of itinerary preparation-limitation and constraints-Types of Tour-tour formulation and designing process-group tour planning and component.

Unit 3

Meaning of tour package-types and forms of tour package-costing-quotations-FIT and GIT tariffs-confidential tariffs-voucher- hotel and airline and exchange order-Pax docket-status report-AGT statements- merits and demerits of package tour- special requirements for outbound packages- liaisoning and selling package tours- commission-mark up- services charges. Govt. rules for getting approval-IATA rules-regulations for accreditation- documentation-entrepreneurial skill for travel-tourism and hospitality-problems of entrepreneurship in travel trade.

Unit 4

Itinerary preparation for inbound, outbound and domestic tours- preparation of specific common interest tour itinerary & costing- sample tour itinerary of Thomas Cook-Cox & Kings- SITA Travels.
